Ph.D. Candidate in Quantum Computing

Centre for Quantum Technologies, NUS, Singapore

RESEARCH INTERESTS

My research interests lie in quantum computing and quantum information, with two main focuses. The first is to design efficient quantum algorithms that provide advantages over classical methods. The second is quantum learning theory, with the goal of learning and characterizing quantum systems. I am also broadly interested in theoretical computer science.

EDUCATION

National University of Singapore, Singapore Sep. 2023 – Present

Ph.D. in Quantum Computing

Supervisor: Dr. Patrick Rebentrost

University of Calgary, Calgary, AB Sep. 2019 – Sep. 2021

M.Sc. in Computer Science

Thesis: Quantum walks on arc-transitive graphs with self-loops

Supervisor: Dr. Peter Høyer

GPA: 3.93/4.00

University of Calgary, Calgary, AB Sep. 2016 – Jun. 2019

B.Sc. Honours in Computer Science (Minor in Pure Mathematics)

Thesis: Efficient quantum walk on the grid using self-loops

Supervisor: Dr. Peter Høyer

GPA: 3.97/4.00

Wuhan University of Technology, Wuhan, Hubei Sep. 2014 – Jun. 2016

B.Eng. in Software Engineering

GPA: 88.12/100

RESEARCH EXPERIENCE

School of Mathematics and Statistics, *Wuhan University* May 2023 – Aug. 2023

Visiting Student

Host: Dr. Yinan Li

Conducted research in quantum algorithms and quantum learning theory, focusing on the expressive power and generalization of quantum learning models.

Institute for Quantum Computing, *Baidu Research* Nov. 2021 – May 2023

Research & Development Intern

Mentor: Dr. Xin Wang

- Conducted research in quantum algorithms, quantum information, and quantum learning theory, resulting in peer-reviewed publications and more than 20 patents. Characterized the expressive power of quantum neural networks and extended the framework to multi-qubit quantum phase processing, yielding intuitive and efficient algorithms for phase-related problems.
- Contributed to Paddle Quantum and Quantum Leaf, platforms for designing, testing, and deploying programs on quantum simulators and cloud-accessible quantum hardware. Implemented modules and tutorials for variational ansatzes, quantum singular value transformation, and quantum phase processing.

- Analyzed the time complexity and success probability of lackadaisical quantum-walk search, proving several prior numerical observations and an open conjecture.
- Contributed to a MATLAB toolbox for efficiently simulating quantum walks on multiple graph families and calculating quantum hitting times and success probabilities.

TEACHING EXPERIENCE

Department of Computer Science, University of Calgary

Sep. 2019 – May 2021

Teaching Assistant

DATA 211 - Programming with Data

CPSC 217 - Introduction to Computer Science for Multidisciplinary Studies I

CPSC 231 - Introduction to Computer Science for Computer Science Majors I

CPSC 519/619 - Introduction to Quantum Computation

SELECTED TALKS

1. *Simultaneous Estimation of Nonlinear Functionals of a Quantum State.* 2025
Contributed talk at the 25th Asian Quantum Information Science Conference (AQIS 2025, Hong Kong).
2. *Non-Asymptotic Approximation Error Bounds of Parameterized Quantum Circuits.* 2024
Spotlight presentation at the 38th Conference on Neural Information Processing Systems (NeurIPS 2024, online); short oral presentation at the 8th Conference on Quantum Techniques in Machine Learning (QTML 2024, Melbourne).
3. *Power and limitations of single-qubit native quantum neural networks.* 2022
Presented at the 36th Conference on Neural Information Processing Systems (NeurIPS 2022, online).

AWARDS & SCHOLARSHIPS

Outstanding Intern Award 2022 , Baidu Research	Dec. 2022
Alberta Innovates Graduate Student Scholarships 2020 , University of Calgary	Nov. 2020
Alberta Graduate Excellence Scholarship (AGES) 2020 , University of Calgary	Jul. 2020
Alberta Graduate Excellence Scholarship (AGES) 2019 , University of Calgary	Nov. 2019
International Graduate Recruitment Award 2019 , University of Calgary	Sep. 2019
Visa Differential Scholarship , University of Calgary	Sep. 2019
International Undergraduate Award 2018 , University of Calgary	Dec. 2018
SUPER Work Award 2018 , University of Calgary	Sep. 2018
George Loo Scholarship in Computer Science , University of Calgary	Jul. 2018
Program for Undergraduate Research Experience (PURE) Award , University of Calgary	May 2018
Transfer Student Scholarship , University of Calgary	Sep. 2016
Third-Tier Scholarship , Wuhan University of Technology	Oct. 2015

ACADEMIC SERVICE

Journal reviewer: *Quantum*, *Physical Review Research*, and *Physical Review A*
 Conference reviewer: TQC, AQIS, and QIP
